Welcome on board!

MARC HERMANS

In Belgium he is well known for his involvement with the legendary Radio MAEVA. At Mi Amigo he is already a regular guest and replacement for Eric Hofman. Today we can proudly announce that Marc Hermans will get his own weekly show at Mi Amigo later this month! With the arrival of Marc, another important step has been taken in the planned further expansion of our Flemish programme section.

That Happy Summer Feeling... *We're bringing it back, on Shortwave and Online!*

Never before we longed more for those happy times in the sun, hanging on the beach, enjoying freedom and great music with our friends, then right now. But summer is finally here and it is not too late for a bit of fun by the sea...

This summer, Mi Amigo's crew will return to the sea once more: not (yet) on a ship, but in a live studio at the foot of the sea pier in Blankenberge, the popular coastal town at the 'Belgian Riviera'.

From there, we will air a series of **live broadcasts** during **5 summer weekends**, ending with a full week of live programming with many former Mi Amigo DJs and well known radio guests, during 'Offshore Days', at the end of August. (*for dates: see below*).

You are more than welcome to visit us there, but wherever you are in the world, no matter what you do, we will be with you, providing you with great summer sounds: music straight from those happy summers of the 60s, 70s and 80s, brought to you by many of the same familiar DJs that first played them to you from small studios on board [the legendary pirate radio ships](#)...

Come visit us live in Blankenberge or via shortwave and the internet!

Greetings from Blankenberge!

This summer, we will revisit the Belgian coast to move into the brand new 'Mi Amigo Pavilion', our own permanent studio at the foot of the sea pier in Blankenberge.

From this glass pavilion, various disc jockeys will present Live programs every other weekend with a live audience of summer tourists.

Everyone is welcome! We are safe behind glass but there is serious danger to be infected with the radio virus. You are warned!

The Mi Amigo Pavilion will be fully equipped with an '**Old Skool**' radio studio, complete with carts, jingle machines and an analogue mixing console, in order to best reflect the atmosphere and sound of the 70s and the onboard studios of the legendary offshore stations..

The Pavilion will become the new base for Mi Amigo live broadcasts, recordings and live events. The perfect spot to entertain our listeners and ourselves, playing those summer sounds with the familiar view and fresh air of the North Sea in the background.

Offshore Days

In the week from Monday 24 to Sunday 30 August, we are part of the event '**Offshore Days**' (Light).

During that week we will host many well-known DJs and and on-air personalities from that special era, to our studio pavilion. All week, together we will pay tribute to all the legendary offshore radio stations from the 60s, 70s and 80s.

(A separate newsletter about the event will be send in August with all the latest info)

MV Mi Amigo featured in the new shirt design **T-SHIRTS in production!**

This is what they will look like: our brand new T-shirts. Being manufactured this week, they will premiere at our Blankenberge live-weekends, starting July 18 and 19!

The front features the text of the famous Mi Amigo jingle 'De laatste de beste...' (*the last... the best*), that proudly sums up Radio Mi Amigo's unique status among the Dutch and Belgian offshore radio stations in the 70s: it was the sole station that continued broadcasting when the others closed down in 1974.

The back features our current Logo and the iconic silhouette of the ship from where it all started, and after which our station is named: the **MV Mi Amigo**.

Buying these new, high quality fabric T-SHIRTS is a great way to support Radio Mi Amigo International. They will be available during the live broadcasts in Blankenberge, where you can buy them directly of our DJs for only 20 euros.

You may also order them online via our website:

Wherever you go go go ...

Today, we don't carry large transistor radio's around anymore. Yet, as we all carry smart-phones wherever we go, Radio Mi Amigo International can be listened to in cars or on-the-go by more people than ever before. Remember: Mi Amigo's online 24/7 web stream is never more than one app click away...
